**Department of Geography**

**'Watering the Plants'**

***Friday, 28<sup>th</sup> February, 2025 at 7.30 am onwards***

---

<b>Name of the Activity</b>	: Watering the Plants
<b>Date and Time of activity conducted</b>	: 28 <sup>th</sup> February, 2025, at 7.30 am onwards
<b>Nature of Activity</b>	: Watering the plants
<b>Target Group</b>	: B. A. Part- I, II and III (Geography) Students and Teachers
<b>Number of Participants</b>	: 16 students + 02 Faculty = 18
<b>Name of Organizer</b>	: Department of Geography

**Short Description of Conducted Activity:**

Natural vegetation is a valuable natural resource. It is an important factor in maintaining environmental balance. More than 33 percent of the total geographical area must be under forest cover. However, in the last few decades, the proportion of forest has decreased rapidly in Maharashtra and India. The current scenario of the Kolhapur district and Hatkanangale tehsil showed only 18.47 and 2.35 percent forested land.

As a concern to Peth Vadgaon, it has no forest area. Recently as per Govt. directions, 6.52 hectares area has been developed as an 'Oxygen Park' with a new endemic species plantation. Considering all these facts our Geography department has contributed to sustaining these tree plants through watering in the hot summer season. 16 students and 02 departmental faculties participated in watering the plants on Friday, 28<sup>th</sup> February 2025 from 7.30 am onwards. Out of a 6.52-hectare area, nearly 0.31-hectare tree plantation area has been watered.

**PO's and PSO's covered:**

**PO's:**

- 1) To aware students about forest resources and environment.
- 2) To sustain new planted tree species through watering.

**PSO's:**

- 1) The students are aware about forest resources and environment.
- 2) The new planted tree species are sustained through watering.
