Continuous Internal Evaluation – 2023-24

The Department of Botany is always involved in assessing the students by conducting different modes of examinations. The students of B. Sc. I, II, and III are evaluated by using various methods. The main objective of this internal evaluation is to check students' knowledge and improve them. By assessing their method of answering the students are guided for their mistakes.

In the academic year 2023-24, the students are assessed by conducting two home assignments and one unit test for each paper. The test is conducted in the classroom while the home assignment is given to writing at home. It is similar to an open book test. When these tests and assignments are checked by respective teachers the students' counselling drive is run to guide the students for their mistakes as well as to improve their writing. These internal evaluation methods improve the students' writing skills and they get benefited in the final exams at university.
